

PECHAZHAGAN R

Junior Software Developer | CSE Graduate

Pechazhagan2021@gmail.com

+91 9361854218

SUMMARY

Computer Science graduate with strong programming skills and hands-on experience in Oracle-based software development. Proficient in SQL, PL/SQL, and experienced with Oracle data base design, performance tuning, and data manipulation. Passionate about contributing to enterprise-level Oracle solutions and eager to grow within a dynamic database development team.

EDUCATION

BE Computer Science Engineering 2021 - 2025

Tagore Institute of Engineering and Technology (Anna University) – CGPA : 7.84.

TECHNICAL SKILLS

- Programming Languages: SQL, PL/SQL.
- Database Management :Oracle Database 11g/12c/19c,Oracle SQL Developer
- Development Tools: Oracle SQL Developer
- Database Technologies :Oracle RDBMS, Oracle APEX(if used)
- Software: MS Office
- Additional Skills: Python, Java, HTML,(Basic)

SOFT SKILLS

- Communication
- Problem Solving
- Team collaboration
- Time Management

PROJECTS

Real-Time Safety Compliance Monitoring (Mar 2025-May 2025)

- Developed and deployed a YOLO-based real-time safety monitoring system to ensure compliance with helmet and face protection standards in industrial environments.
- Implemented machine learning algorithms to detect safety violations (e.g., missing helmets or face shields) with high accuracy, reducing workplace safety incidents by X%.
- Integrated the YOLO detection system with safety compliance dashboards for continuous monitoring and automated reporting, enhancing operational efficiency and risk mitigation.

PL/SQL Based Bank Management System (MAY 2025-JULY 2025)

- Developed PL/SQL procedures to validate creditor and debtor details before initiating any financial transaction.
- Implemented exception handling and debugging (DBMS_OUTPUT, SQLCODE, SQLERRM) to detect mismatches and notify the creditor in case of errors.
- Enabled smooth money transactions by ensuring that when no issues were found during verification, funds were processed successfully.

Junior Software Developer – Exchange Data International India Pvt. Ltd. (Sep 2025-Present)

- Gained exposure to real-time project workflows and coding standards used in the company.
- Assisted in identifying and fixing bugs by debugging applications and supporting issue resolution. Worked on software development activities including writing, testing, and maintaining code as part of a development team.
- Improved understanding of application functionality and performance improvement techniques. Collaborated with senior developers and team members to understand requirements and implement assigned tasks.

INTERNSHIP

Odugaa Tech-Salem-July 2022

- Learned basics of circuit devices based of Internet of things.
- Gained exposure to components like sensors, microcontrollers, and basic circuit design
- Understood how IoT devices collect and transmit data
- Observed real-time applications of IoT in smart systems

Intern-Marcello Tech Company, Trichy – July 2023

- Learned the basics of Full Stack Development, including front-end and back-end technologies.
- Gained hands-on experience with HTML, CSS, JavaScript, and basic database handling
- Understood how front-end and back-end systems interact in a web application.

LANGUAGES

- Tamil - Proficient
- English- Proficient

PERSONAL DETAILS

- **Name** : Pechazhagan
- **Father Name**: Rajamanikam
- **DOB** : 16/06/2003
- **Address**: 24/2 Kattukottai, Oothukadu Post, Palaniyapuri, Attur Taluk, Salem - 636108.

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
